

 WINGS OF THE CHERUBIM

The Birth Of Light

Each day sealed in time

The Lion of Judah

A day is birthed in the uniqueness of its own being.

That day is set in a rhythm of oneness with a continual flow of light.

This marriage of time and light begins in ascending light without beginning from the **EAST**.
The essence of the start of the light of each day is clothed as a rainbow spectrum. It's time is an atmosphere.

Each day is brought forth and sealed, with a recorded date: take out hour.

The Light of each day opens it's birth with an aura of Violet.

This violet Light is constantly emerging out of darkness.

It is the 1st color of Light continually ascending in a rainbow spectrum of that day's dawning.

Violet then blends into indigo, moving through to blue.

Green is placed as a center divider and reflects the emerald earth.

Yellow then appears and merges to orange. The birth of that morning's Light completes with the color red.

The fullness of the rainbow spectrum is finished.

The morning of that day has been birthed. It's time and date are recorded and will be unique unto itself.

The Hebrew calendar starts a day at 6 AM. At 9 AM it will be noted as the third hour, 12 PM the sixth hour. The morning of that day is finished.

Six is the number of man.

The time flow of each day is married to the time flow of a man's life.

The time and Light proceed to the afternoon. When the ninth hour at 3 PM is reached, the Light of that day starts to decrease in intensity, progressing to a closure of falling away. It is descending to meet a falling away to darkness. This darkness does not have a completion and is continual.

Each day is separated unto itself and is unique - a degree of silver apportioned to that day's light. This variance of silver in a day's light is formed by the angle of the earth's rotation to its sun.

Silver increases proportionally as the maximum angle to the sun is reached. The earth, at an appointed moment, stops tilting. The increase of silver in the light stops; a completion has been reached. Now a reverse angle is set in motion and the degree of light begins to lessen.

The earth's motion in alignment with time and light is absolute evidence of a Creator. It is not possible for these sequences to be set in motion by themselves. There is no calculation of percentage that can be applied.

This is the emerald rainbow of Revelation 4:3. In the millenium kingdom of Christ reigning on earth , his throne will be set in the third temple of Ezekiel in jerusalem in the city of David.

The day's rainbow spectrum now reveals blue which flows and blends into indigo. At completion, Indigo merges to violet which falls away to unending darkness .

Each date is set individual to itself, at it's close it is completed.

That which is done is done!

There can be no change . Each moment unique to itself.
Nothing can be added and nothing can be taken away .

The day's time is set as a brick in the wall of time never to appear again.

In the begining the creator God speaks a declaration,
"let there be light ."

He closes time in **Revelation 10:6** by stating;
"There shall be no more reckoning of time."

The command to create light in Genesis 1:3 is a marker to begin the atmosphere of time.

Eternal spiritual creation had existed before time and will exist after time.

Man was fearfully and wonderfully made after the image and likeness of his Creator. He was created in **three**.

He has a unique personality and a spirit with a spiritual heart.

In time he was birthed into a physical body. His spirit and soul were created
before time.

Psalm 139 :15 - 16

***"My substance was not hid from thee, when I was made in secret, and
marvellously wrought in the lowest parts of the earth.***

***Thine eyes did see my substance, yet being imperfect; and upon thy books all
these things were written, even before day was and man was brought into
existence."***

Here in eternity before time and at the begining of time, all was created good.
On the sixth day of creation, God made man. As man was made in God's image
, he had been given free will as had the spiritual beings God had created;
Imperial thrones, or Lordships or angelic orders or dominions; **Col. 1:16**

At this time since all was good, there was no need for judgement or hell.

A day in the Hebrew calender begins at 6AM
The third hour is 9AM
The sixth hour is 12PM
The ninth hour is 3PM
The 12th hour is 6PM

The term for man is Adam. In Hebrew it is synonymous with ground. It symbolizes "red man" or "earth man". Both Edom and Esau also link to Adam and red. Man's number is six as he was created on the sixth day.

The earth itself is seen as scarlet or red. In Exodus 25-31 and other areas, the reference to blue - purple - scarlet refers to the blue of the sky and the red of the earth. Purple is the meeting of the two. Heaven meeting earth. These colors are throughout: the pomegranates on the High Priest's garments, the High Priest's garments themselves and the veil into the Holy of Holies is blue - purple - scarlet. Also, the changes of robes from Two Judgement Thrones are Scarlet and purple.

This meeting of heaven or sky and earth is necessary as a result of God placing a curse on man, satan and the earth. It was only God himself coming into the earth and taking man's sin upon Himself would justify His absolute righteousness, remove the curse and open a door to eternal life.

The timing of the birth of a day is seen as a red sun to begin the day. The close of a day also begins with a red sun. It descends to violet and falls away to never ending darkness. Darkness, as a result of the curse, indicates eternal Judgement.

The crucifixion was the ultimate act of God's intercession for man.

He designed the crucifixion. In Psalm 22, David refers to the piercing of hands and feet before crucifixion was known. He rose from the dead and opened a door to eternal Light without end to any who would believe.

His death was set to the day of Passover and His Resurrection was on the third day on the Feast of first fruits, Bikkurim.

On rising He overcame the curse, sin, death, hell and the grave to all those who would repent and believe.

The crucifixion began on the third hour, 9AM. at the 6th hour, 12 Pm darkness covered the earth. Six is the number for man. The darkness was a reflection of the curse set on the earth. Three hours mirrored the fullness of Time. On the 9th hour the iron spear pierced His heart and death was sealed.

It is at the ninth hour when a day's midday light begins to lessen and fall into the red of the rainbow spectrum of Light which completes in violet then to never ending darkness. This is a reflection of everyman's life, as a day is seen as a man's Life, So darkness without end is eternal Judgement,

as His death to His body was at the ninth hour, His spirit rose to eternal Light.

Every man has the potential to eternal Life. Each man's ninth hour is unique To that man as he passes through the day of his Life.

When a man comes to a time when he communes with his heart, meditates and repents, a death occurs to his spirit man. He believes and his risen savior and him become one. This a man's ninth hour has come

As Jesus had moved His crucifixion in alignment with the Hebrew holidays He had ordained, He now removes every believers sunset bringing that person into the endless light of eternity . Here Jesus is setted on the throne of the Lion of Judah.
